

High value incubation @ Open Life Sciences Campus (OLSC)

EARTO-EIRMA Conference

29 april 2015

We're part of one of the broadest and most diversified family of healthcare companies

Johnson & Johnson

More than
125
years

Who are we?

Innovative

We focus on transformational solutions

Collaborative

We believe in connecting our expertise with others

Caring

We put people first

At Janssen, we collaborate with the world for the health of everyone in it

Transforming the way diseases are treated

Greatest unmet need

Most compelling science

Benefit to patients

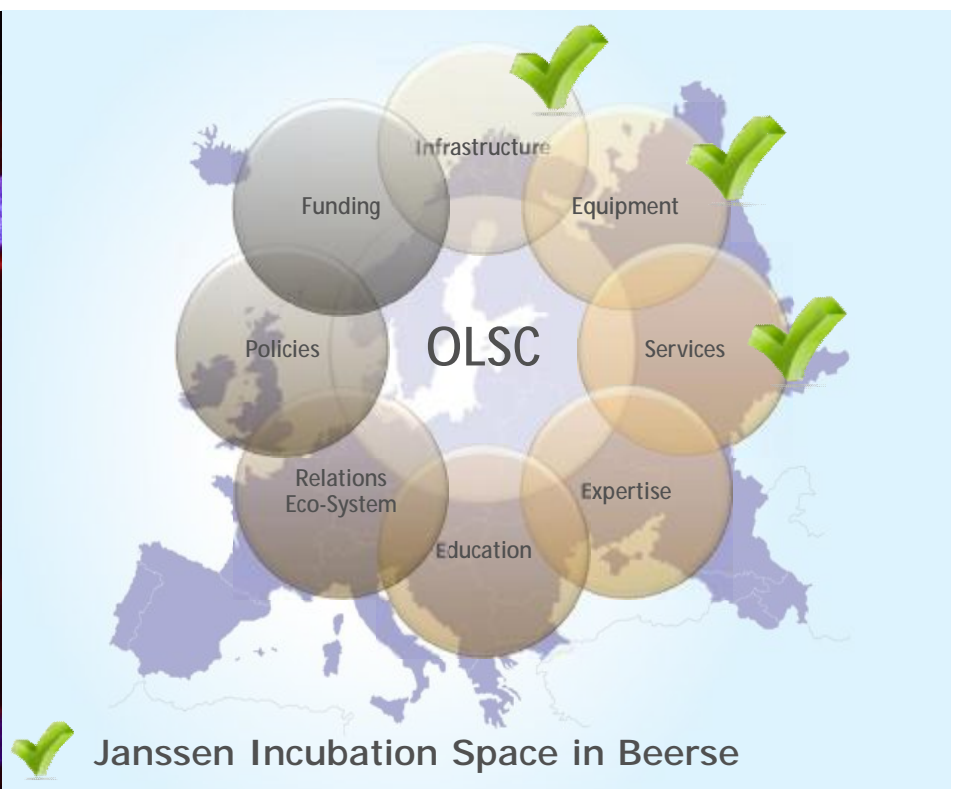

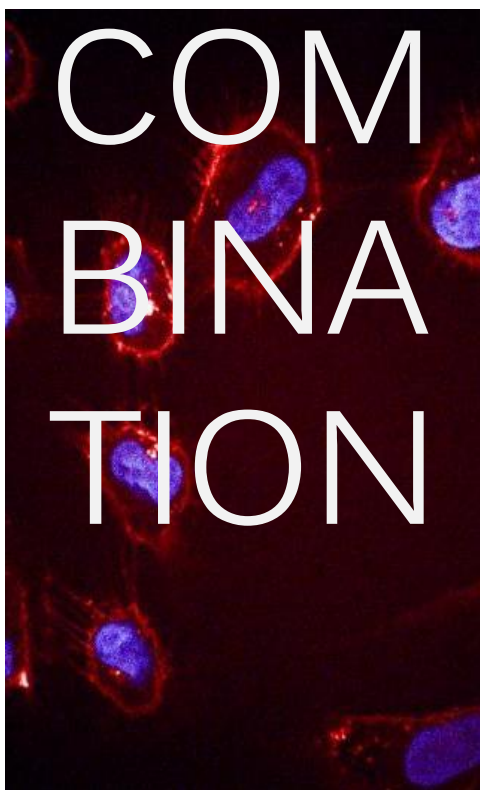

Ambition

We are driven by the care for our patients – the goal for the Open Life Sciences Campus is to become a key enabler of the European Life Sciences Eco-system with the aim to:

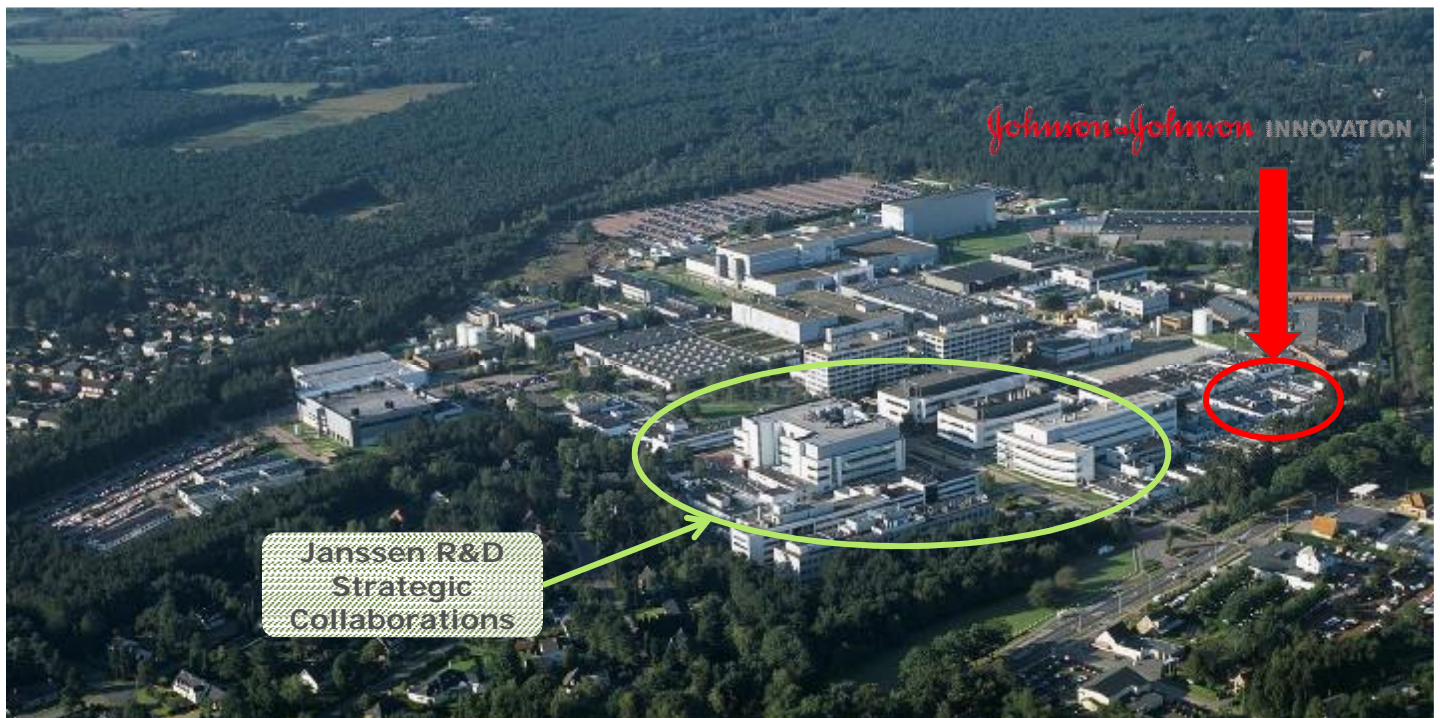

- Attract top science and technologies, and talent
- Accelerate high-risk research & development to clinical POC
- Leverage resources in the region
- Contribute to the J&J pipeline

In order to create, develop and deliver ground-breaking healthcare solutions that will make a difference.

Open Life Sciences Campus USP

About Janssen Belgium: OLSC

About Incubation Space
